President's Note:

As we reflect on another meaningful year at RDF, we feel deeply grateful for the journey we continue to share with our students, parents, staff, alumni, supporters, and well-wishers. Every achievement this year has been possible because of the trust, encouragement, and collective effort of the extended RDF family.

We sincerely thank all our supporters—individuals, partners, and organizations—who continue to stand beside us with commitment and compassion. Your continued support and belief in our vision have enabled us to create better opportunities and stronger foundations for the children we serve.

This year marked important progress in strengthening our school infrastructure. With your generous contributions, we were able to add new classrooms, improve the playground, enhance transportation facilities with a school bus, and equip classrooms and laboratories with smart TVs and learning materials. These improvements are helping us provide a more engaging, safe, and enriching learning environment for our students.

Our teachers remain committed to continuous learning and professional growth through various workshops and training programs. Their dedication and enthusiasm are reflected in the classrooms every day. We are equally thankful to our parent community for their cooperation, encouragement, and active involvement in the educational journey of their children.

The achievements of our alumni continue to inspire us immensely. Many former students are now serving society as doctors, nurses, teachers, entrepreneurs, and government employees, carrying forward the values and spirit of RDF into the wider world.

We are also immensely proud of our sports achievers. Our heartfelt congratulations to Jeevanji Deepthi for receiving yet another prestigious "Bharath Gaurav Award" from the Governor of Telangana. Her remarkable journey continues to motivate countless young students to dream bigger and work harder.

What makes RDF truly special is not only the growth we witness in numbers, but the growth in confidence, resilience, compassion, and hope within our community. As we move forward, we remain committed to creating meaningful opportunities and transforming lives through education and sports.

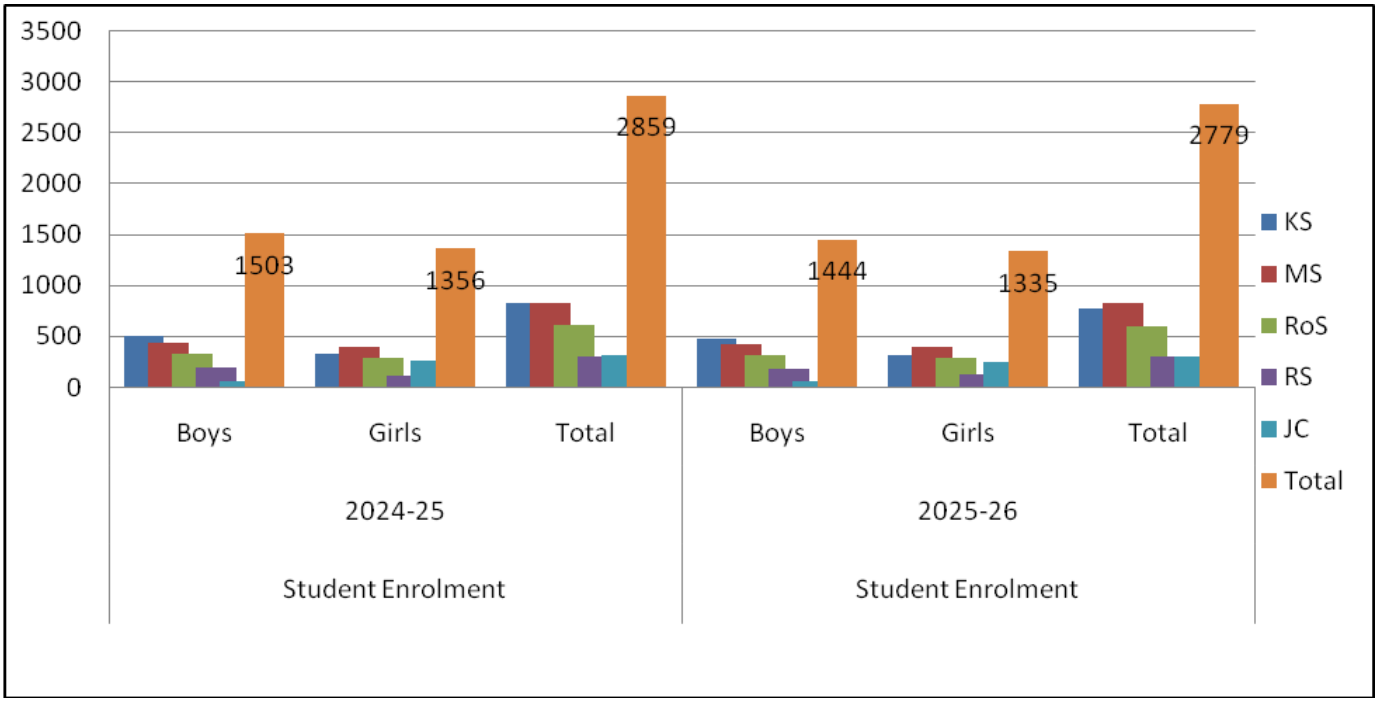

Thank you for being an important part of this journey. Together, we continue to shape brighter futures—one child at a time.

Sincerely,
E. Vandita Rao

Eco Club for Mission Life School Participation Certificate

IIT Madras School Connecting Program Participation Certificate

Educational Activities

The IIT Madras School Connect Program is a unique initiative designed to introduce school students to advanced learning opportunities from one of India's premier institutions, Indian Institute of Technology Madras. Through this program, students from Classes X to XII gain exposure to emerging fields such as Artificial Intelligence, Data Science, Electronic Systems, and Engineering through interactive online courses. The program helps students develop curiosity, critical thinking, and career awareness while experiencing IIT-style learning at an early stage. It also empowers schools by providing access to high-quality educational resources and expert guidance, thereby bridging the gap between school education and higher learning. Our students participated in it and successfully got the participation certificates.

The Chekumuki Science Sambaralu, organized across Telangana by Jana Vignana Vedika (JVV), is a prestigious state wide science talent test and competition that encourages scientific thinking and aptitude among students. Every year, RDF students actively participate in this event and consistently perform exceptionally well at various levels of the competition. Through their participation, students enhance their scientific knowledge, analytical thinking, and confidence while gaining valuable exposure to competitive learning environments.

RDF Schools introduced Visual Art Education in collaboration with INDFAME to encourage creativity, imagination, and self-expression among students. Through activities such as drawing, painting, craftwork, and creative design, students are provided opportunities to explore their artistic talents and develop confidence. This initiative not only enhances students' creative abilities but also improves concentration, observation skills, and aesthetic appreciation. The program has become an important part of RDF's holistic education approach, helping children grow into confident, innovative, and well-rounded individuals.

P. Snikitha from Kalleda School has been selected for National level Road Safety Olympiad

Won a cash prize at Math Olympiad at Warangal

National Mathematics Day is celebrated in a fun and engaging manner across RDF schools to honour the legendary mathematician, Srinivasa Ramanujan. The celebrations begin with a special prayer service dedicated to his remarkable contributions to mathematics. Students actively participate in a variety of activities such as talent tests, mathematical puzzles, and quiz competitions that make learning mathematics enjoyable and interactive. These activities help develop logical thinking, problem-solving skills, and a greater appreciation for mathematics among students.

Student Activities

Our institution regularly organizes a wide range of student-centered activities designed to nurture and develop children's skills across multiple domains. These initiatives focus on strengthening subject knowledge, encouraging participation in competitive events, fostering creativity through art, craft, and music, providing life skills training, promoting mind-body awareness, encouraging sports and physical fitness, and inspiring active community engagement.

We extend our heartfelt gratitude to our dedicated volunteers, subject matter experts, education partners, and financial supporters whose invaluable contributions make these enriching opportunities possible. Their continuous encouragement, guidance, and support play a vital role in shaping holistic learning experiences and empowering our students to grow into confident, skilled, and socially responsible individuals.

The **FLS (Foundational Learning Study)** exam mainly assesses the **Foundational Literacy and Numeracy (FLN)** skills of Grade 3 students under the NCERT and NIPUN Bharat initiative. The assessment focuses on basic reading, writing, understanding, and mathematics skills. Our students performed well in this exam.

Student Committees play a vital role in the functioning of RDF schools by providing every child with opportunities to take responsibility and actively participate in school life. Through these committees, students gain valuable exposure to teamwork, decision-making, and problem-solving. The initiative nurtures self-confidence, enhances public speaking abilities, and strengthens leadership qualities. By identifying challenges and working collaboratively to find solutions, students develop essential communication and organizational skills that prepare them to become responsible and confident leaders in the future.

At RDF schools, learning goes far beyond textbooks. Our teachers continuously explore innovative ways to make every lesson interactive and relatable by using natural and locally available materials as teaching aids. These creative methods help students connect classroom concepts with real-life experiences, making learning both practical and memorable. The approach encourages curiosity, participation, and joyful discovery, creating an energetic classroom atmosphere where children learn with excitement and confidence.

As part of the Sankranthi celebrations, Rangoli competitions are organized for our students to promote awareness and appreciation of India's rich cultural heritage. These activities provide children with an opportunity to learn about the significance of the festival and the traditional art of muggulu (rangoli designs). By participating enthusiastically, students not only showcase their creativity and artistic talents but also develop a deeper connection to cultural values and traditions, helping preserve them for future generations.

Saturday Activities:

A key aspect of Rural Development Foundation (RDF) schools is our commitment to holistic education through innovative and non-conventional learning methods. While striving for strong academic excellence, RDF also places equal emphasis on nurturing analytical thinking, creativity, leadership, and self-confidence among students. Through experiential learning, collaborative activities, sports, arts, life skills, and community engagement, students are encouraged to think independently, express themselves confidently, and develop problem-solving abilities. These qualities play a vital role in shaping them into responsible, empowered, and compassionate individuals who can emerge as exemplary leaders — not only within RDF schools, but also in their future personal, professional, and social lives.

Silver Oaks' Educational Empowerment Initiative: *Coins for the Country*

Silver Oaks International School, under the visionary leadership of its Chairman, Mr. Dhanunjaya, has consistently demonstrated a strong commitment to empowering rural children through quality education. One of the school's most inspiring initiatives, *Coins for the Country*, began as a simple fundraising effort and has gradually grown into a meaningful movement with increasing participation and support each year.

The initiative reflects the generosity and social responsibility of the Silver Oaks community, while also reinforcing the belief that supporting education is a shared responsibility. Through this effort, the school is not only raising funds for a noble cause but also nurturing empathy, social awareness, and a spirit of nation-building among its students and stakeholders.

It is truly heartening to witness institutions like Silver Oaks lead by example, inspiring others to invest in the future of our country—one child, one coin at a time.

An Edge for RDF Schools

Global Edge Schools: Lighting the Path of Hope Through Education

The Global Edge Schools have been valued partners for many years. Their association with RDF reflects a shared belief that the partnership can transform lives and create lasting social impact.

Their support has extended across several important areas, helping RDF strengthen Through their consistent encouragement and meaningful contributions, Global Edge Schools have played an important role in advancing RDF's vision of holistic rural development.

Training Programs

RDF has placed a strong emphasis on the comprehensive training of both teachers and students. Teachers undergo regular training sessions tailored to specific subjects or broader capacity-building programs. Education coordinators and volunteers oversee this training, closely monitoring its effectiveness and providing continuous feedback on teaching and learning methods.

Volunteer-led training plays a vital role in the RDF framework. These dedicated volunteers, aligned with our mission, conduct online sessions for both students and teachers. These sessions cover a wide range of topics, including Mathematics, English, vocational skills development, and career guidance, enriching the educational experience for all involved.

Field Trips and Educational Tours

Learning journeys, such as field trips, are an integral part of RDF's holistic approach to education. These excursions take students beyond the boundaries of their classrooms and villages, opening up new worlds of experience and understanding.

Field trips provide invaluable opportunities to observe how various industries function, offering practical, real-wo Experiential learning journeys, including educational field trips, are an important part of RDF's holistic approach to education. These opportunities allow students to step beyond the boundaries of their classrooms and villages, helping them connect learning with the real world.

Through such visits, students gain practical exposure to industries, institutions, and workplaces, enabling them to better understand how different systems function in everyday life. These experiences enrich classroom learning by making concepts more meaningful and relatable.

Field trips also play a vital role in broadening students' perspectives. By interacting with different communities, cultures, and environments, students develop confidence, curiosity, empathy, and a deeper understanding of the diverse world around them.

Thadoba National Park

Community Involvement

Community involvement is an important part of the RDF family. Every RDF school has a village committee that meets monthly to discuss school achievements, challenges, and suggestions for improvement. Parents and community members actively support the school by addressing issues such as staff and student attendance, parental cooperation, food supplies, and outstanding fees. This partnership strengthens both the school and the community.

Parents Meeting

Parents Committee

Service to the voters in recent Panchayath Elections by our students

Environmental Awareness

RDF is deeply committed to sustainability and environmental awareness across all its schools. A guiding principle across our campuses is: “Do not waste a drop of water, a grain of rice, a watt of power, or a piece of paper.”

Our schools actively promote recycling and reuse, with teachers creatively transforming discarded materials into meaningful teaching aids. Rice grains are used to explain crop diversity, leaves become art canvases, and marbles help demonstrate Newton’s Laws of Motion. By using locally available resources, RDF integrates environmental responsibility into everyday learning and school life.

Kitchen Gardens in Schools

Compost Pit and compost using

Plantation in schools Ground

Social Awareness Programs

Instilling a strong sense of social responsibility is a cornerstone of RDF's educational philosophy. Our students actively participate in a range of community engagement initiatives—such as awareness campaigns, health camps, and other outreach efforts—that are integrated into our school activities. These initiatives empower rural children to become agents of change, building their self-confidence and identity while deepening their understanding of social issues and how to address them.

Awareness on Fire safety

Anti Drugs Awareness Program

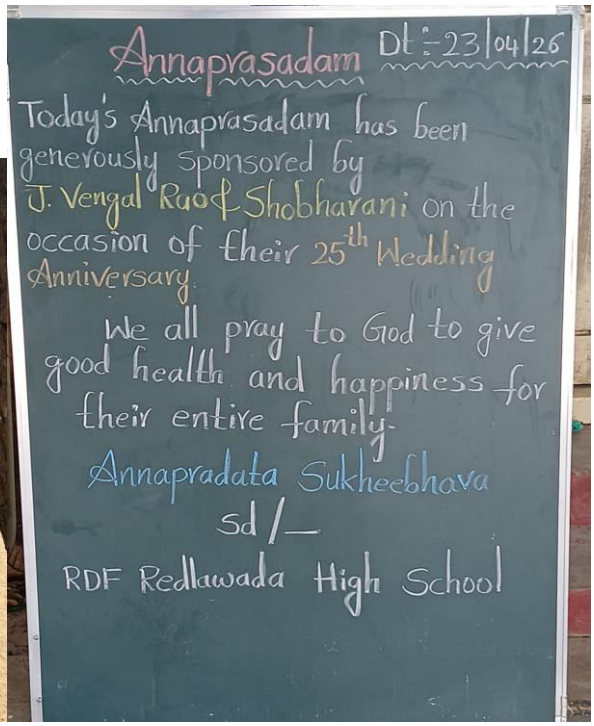

Eye Camps for Students and Staff

Annaprasadam

We are committed to providing a nutritious midday meal to our students every day, as it plays a vital role in their overall well-being. Ensuring that our children are well-fed is essential for their academic performance and participation in sports and other activities.

Development Activities

Schools are now operating at full capacity, and we are excited to share the significant infrastructure developments that have taken place. These improvements are a testament to the generosity of our supporters, whose contributions have been instrumental in enhancing our school facilities. Thanks to their support, we are able to offer a more enriching and conducive learning environment for our students.
